DETAILED ACTION

1. Applicant's preliminary amendment filed on March 10, 2005 has been entered and made of record.

2. This application is in condition for allowance except for the following formal matters:

(a) The information with regard to the US Application No. 09/234,846 mentioned at lines 4-7 of page 1 of the specification (immediately after the heading "Related applications" is required. Such information is US Patent Number and issue date.

(b) Claims 7-10 are objected to under 37 CFR 1.75(a) for not pointing out and distinctly claiming the subject matter which the applicant regards as his invention. The reasons are as follows:

The limitation of "said contour features" recited in lines 2-3 of claim 7 lacks suitable antecedent basis. Furthermore, claims 8-10 depend from claim 7 and are also objected for the same reasons.

3. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

4. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

5. Claims 1-6 and 11-30 are allowed.

6. Claims 7-10 would be allowable if rewritten to overcome the objection(s) under 37 CFR 1.75(a), set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Art Unit: 2624

7. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the cited prior art fails to teach or suggest each of plurality of digital filters having a unique center frequency, a threshold module as recited in lines 13-19, and a contour module as recited in line 20-28. These claimed features are also recited in claim 18 and thus, claim 18 is allowed for the same reasons as well.

Dependent claims 2-6, 11-17, and 19-30 are also allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Li et al. (USPN 5,602,934), Kido et al. (USPN 5,561,724), Peacock (USPN 4,535,417), Anderson et al. (USPN 5,717,789), and Makram-Ebeid (USPN 5,768,405) teach the same field of invention that image filtering and/or processing.
